About ARMMAN

Founded in 2008, ARMMAN is a non-profit leveraging mobile health (mHealth) technology to create scalable, cost-effective, equity-based and gender-transformative, non-linear, systemic solutions to reduce maternal and child mortality and morbidity in India. We work directly with pregnant women and mothers to improve their health seeking behaviour while building capacities of health workers at all levels to ensure efficient antenatal and childhood care, and timely diagnosis, management and referral of high-risk conditions during pregnancy and infancy.

We adopt a "tech plus touch" approach leveraging the deep mobile penetration in the country,along with existing health worker networks of the government and partner NGOs to improve health outcomes.

- Interventions implemented by ARMMAN have reached over 76M women and 551,003 health workers across 28 states to date
- ARMMAN has received several awards and honours including the Skoll Award for Social Entrepreneurship 2020 and MIT Elevate Prize 2021, as well as grants from Co-Impact, Google.org, USAID, and others.
